

**Product: 3 PLY Blue Rough Top**

Description

This Carboxylated nitrile belt will outperform urethane belts in wear, cut and gouge resistance. It also has excellent oil resistance. This is an ideal inclined belt for up to 25 degrees and is popular in the paper and cardboard box industry.

**Physical Properties**

Type:	Rough Top Belt
Color:	Blue
# of Fabric Plies:	3
Fabric Top Material:	Carboxylated nitrile
Fabric Bottom Material:	RFL-S Polyester fabric
Profile Top side:	Grip structure
Profile Bottom side:	Impregnated fabric
Total Thickness:	0.313"

**Technical Data**

Temperature Range:	-18 to 120 C
Joining Methods:	#2 Clipper, #15 Alligator, #125 Staple
Antistatic:	No
Oil and Grease Resistant:	Yes

**Pulley**

Min Pulley Diameter:	2" Clipper, 2.5" Alligator, 3" Staple
Carrying Rollers	Yes
Slider Bed	Yes
Trough Installation	No

**Standards**

FDA food contact	No
